Designed for professional users, Thuraya XT-PRO is the world's most ruggedized and equipped with long battery life, ensuring connectivity i

The Thuraya XT-PRO is the first satellite phone with built-in GPS, Be highest flexibility in all regions. It has the biggest display on any s hardened Gorilla® glass for harsh environments. The screen is desig allows for optimal visibility in bright sunlight and it includes a brig adjust the backlight of the display.

With the Thuraya XT-PRO you can make phone calls and send message a satellite data connection to send and receive emails or browse the PC. For emergencies it has a dedicated SOS button with advanced navi No matter where you are within Thuraya's extensive coverage area, o keep you connected. Thuraya's comprehensive satellite network provi rupted communications in more than 160 countries across Europe, Afric

Global Navigation Satellite System

For the first time on a satellite phone, you can select your preferred navigation system and choose between GPS, BeiDou and Glonass for highest flexibility wherever you may go.

Longest talk-time on any satellite phone

With a talk-time of up to 9 hours and a standby time of up to 100 hours the Thuraya XT-PRO enables reliable communications whenever you need it.

Glare resistant Gorilla® glass display

Toughened glass for harsh conditions and customized outdoor display for easy readability in direct sunlight, no matter how bright the conditions are.

Dedicated SOS button

The XT-PRO has a dedicated SOS button which is easy to use in times of distress. Even when the phone is switched off, simply press and hold the SOS button for 3 seconds. This starts the phone and triggers the emergency service (call and/or SMS) to any pre-programmed number.

Compact and rugged design

Small enough to easily fit in your pocket, the Thuraya XT-PRO is jet water and dust resistant as well as shock proof to withstand harsh environments.

Features

The Thuraya XT-PRO enables you to stay connected via satellite mode from anywhere under the coverage area of Thuraya's satellite network, which extends across more than 160 countries in Europe, Africa, Asia and Australia. The phone works either with a Thuraya SIM card or with a GSM SIM card from any of the more than 360 Thuraya roaming partners worldwide.

Thuraya's congestion-free network automatically re-allocates network resource to any single spot beam, allowing the Thuraya XT-PRO users to enjoy uninterrupted connectivity beyond the reach of terrestrial communications and cellular networks.

Wherever your business operations take you, Thuraya XT-PRO provides the advantage of reliable satellite communications even in the most challenging environments and remote locations.

Thuraya XT-PRO – universally professional.
